Paseo de la Ribera

Córdoba welcomes its visitors with one of the most extensive and well preserved historical city centres in Europe. A city founded by the Romans, where Muslims, Jews and Christians lived together in peace, allows us to go through 2,000 years of history in a span of just 500 metres. Throughout time, the city of Córdoba has become a real melting pot where different religions and cultures have interacted and come together... giving rise to a living testimony to all of them, which is reflected both in the heritage as well as the culture, traditions and cuisine.

Below we present you with a route to get to know the most important points that the city offers, Essential Córdoba, as well as another four routes through Roman Córdoba, Islamic Córdoba, Jewish Córdoba and Christian Córdoba. **Your journey begins!**
